1.1. GENERAL DISSCUSIONS

- Status report for M2 will be written by Cosylab by the end of the January. It should include:
 - Status report with open points
 - First version of software (FESA classes)

- Flow chart of data acquisition
 - First version of code review
- FESA code should be put in FESA 2.10 when installed in GSI (16.1) + short document on what is where in the code
- Cosylab will compile FESA for 64 bit (1-2 days). After this it should be clear if there is more time needed for this. If more time is needed for this it will be handled as a separate project.
- Cosylab will prepare poster about BPM project for Ralph.
- FESA tutorial will be prepared by Cosylab. It will include introduction part and BPM specific part. Tutorial will be given in first half of February.
- 18.2 is next milestone – development completed.
